Thanks Bruce. Steve, let's try to schedule this for Wednesday, with late Tuesday being the alternate.

Allen,

I'll be there all week starting 4pm Monday afternoon. So late Monday afternoon could work if you are staying in town, and on Tuesday I'm a tour guide/helper with EPA sampling team, so mid to later afternoon Tuesday, anytime Wednesday or Thursday also works. I'm heading home Friday so not available that day.

I'm fairly flexible after Tuesday so whatever works best for you and Hays.

Hey Bruce, see Steve's email below. What's the most likely date and time next week that you would be up at the mine sites? This does not need to be a hard and fast commitment for you if your plans change for any reason, Hays and I can do brainstorming with HW in your absence. But if it does work out that you can be there, that would be great.  
Thanks, Allen

I was wondering if it's a good idea to try to have the Harrison Western prj Mngrs come down and decide the best approach on opening together w you all n Hays. If we can make progress with Frank before HW starts that's a good thing.
